

Northwind Analytics - Remote Work Policy (Version 2.1)

1. Purpose and Scope

This policy explains how employees of Northwind Analytics may work from locations other than a company office. It applies to all full-time and part-time employees. Contractors are covered by their individual service agreements and are not covered by this policy.

2. Eligibility

Employees become eligible for remote work after completing a probation period of three months. Eligibility also requires a satisfactory rating in the most recent performance review. Roles that require physical presence, such as laboratory technicians and facilities staff, are not eligible for regular remote work.

3. Requesting Remote Work

Employees submit a remote work request to their line manager through the HR portal. Managers must respond within ten working days. Approved arrangements are reviewed every six months. Employees may work remotely for up to three days per week; fully remote arrangements require approval from a department director.

4. Equipment and Expenses

The company provides a laptop, a monitor and a headset to every approved remote employee. Employees may claim a one-time home office allowance of 300 euros for furniture such as a desk or chair. Claims must be submitted with receipts within sixty days of purchase.

Internet costs are reimbursed up to 40 euros per month. Electricity and heating costs are not reimbursed. Company equipment remains the property of Northwind Analytics and must be returned within fourteen days when employment ends.

5. Working Hours and Availability

Remote employees must be reachable during the core hours of 10:00 to 15:00 local office time. Meetings should be scheduled within core hours whenever possible. Employees record their working time in the same timesheet system used in the office.

6. Information Security

Remote employees must connect to company systems only through the corporate VPN. Public Wi-Fi networks may be used only when the VPN is active. Confidential documents must not be printed at home unless a lockable storage cabinet is available.

Laptops must use full-disk encryption and lock automatically after five minutes of inactivity. Lost or stolen devices must be reported to the IT security team within 24 hours.

7. Termination of Arrangements

Either the employee or the manager may end a remote work arrangement with thirty days of written notice. The company may end an arrangement immediately in cases of a serious security breach. Questions about this policy should be directed to the HR department.
